# 6. TRANSFER OF OWNERSHIP OF 23-25 OLD ROW TO THE PARISH COUNCIL AND ENGAGEMENT OF A CONTRACTOR.

The Clerk submitted a report updating members on the transfer of ownership of 23-25 Old Row from LNT, and to seek approval of the engagement of a contractor to assist the Council in gaining planning permission and in the preparation of a tender specification.

The Report noted that 23-25 Old Row would be transferred to the Council as freehold and with vacant possession.

### **RESOLVED THAT COUNCIL:**

- 1. Note the report.
- 2. Accept the quotation from Read Design Ltd.
- 3. Authorise the Clerk to inform Read Design Ltd. of the Council's decision to engage them on the terms set out in the report

### 7. RVBC 50-YEAR ANNIVERSARY.

The Clerk provided a verbal update on the 50-year anniversary of the establishment of Ribble Valley Borough Council and the opportunity for the Council to plant a Giant Redwood tree.

### **RESOLVED THAT COUNCIL:**

- 1. Agree to plant a Giant Redwood Tree.
- 2. Authorise the Clerk to inform RVBC of this decision.
- 3. Request all members to suggest a suitable location for the tree and report back to a future meeting of the Parish Council.

### 8. UPDATE ON THE TRANSFER OF OWNERSHIP OF THE WOODLAND PATH.

The Clerk provided a verbal update on the transfer of ownership from Roland Homes to the Parish Council and informed members that a draft Deeds of Transfer had been received by Watson Ramsbottom (WR) and comments on the Deed had been sent back to Rowland Homs.

### **RESOLVED THAT COUNCIL:**

- 1. Agree that the Council wish to proceed with the transfer on the terms as they are currently drafted.
- 2. Authorise the Clerk to Inform Watson Ramsbottom of the Council's decision.

**Post meeting note:** An updated version of the HM Land Registry Document was circulated to members on 30/05/24 for consideration.

### 9. UPDATE ON ACTION FROM PREVIOUS MEETINGS.

The Clerk submitted a report updating members on actions from previous meetings and on-going matters. The Clerk reminded members that there are still funds available from the S104 allocation and members were requested to submit suggestions to the Clerk for discussion at the next Council meeting.

### RESOLVED THAT COUNCIL:

### Agree:

- 1. That the Chair will send a letter to the school thanking them for the pupil's design submissions.
- 2. All members will submit suggestions to the Clerk for future expenditure from the S106 fund allocation.

### 10. PLANNING REPORT.

The clerk submitted a report on the relevant planning applications that had been submitted since the last meeting. Members were reminded that weekly planning applications and decided lists of planning applications are available to view on the RVBC website by using the link below: https://www.ribblevalley.gov.uk/weekly\_lists

## RESOLVED THAT COUNCIL:

Note the contents of the report.

## Barrow Action Group (ring-fenced donation).

At the 5 December 2022 Council Meeting:

RESOLVED THAT COUNCIL:

Agree to accept the funds as a charitable donation with the following conditions:

- 1. That the donated funds will be ring-fenced, in that they will only be used to improve the parish amenity.
- 2. That suggestions made by the Chair of the Action Group, on how to spend the donated funds will be considered sympathetically by the Council.
- 3. That additional expenses incurred by the Council in the administration of the funds or as a consequence of increasing its revenues will be met from the ring-fenced funds.

The above points were agreed by the two members (including the current Chair of the Barrow Action Group - Karen Heyworth ) who were present at the meeting.

### 3. Plans and Elevations.

The Plans and Elevations shown in Appendix 1 to the report, have been submitted to RVBC as part of the planning application. The initial Plans and Elevations were issued to all members for comment and Cllrs. Crook, Street and Chiappi approved them. Cllrs. Kinder and Heyworth did not provide comments.

Member should note the Elevations and Plans submitted to RVBC have a slight change from those circulated for comment, in that the side entrance has been removed, this is because the Parish Council are not taking ownership of the pavement which would have needed adapting to accommodate a stepped entrance.

The reason the Parish Council is not taking ownership of the side pavement, is that it would have also had to take responsibility for the utilities that are running underneath.

The Plans show how the space could be utilised, with a new staircase serving the first floor and a lift which, amongst other benefits, is necessary for people with limited mobility.

The staircase would provide a means of escape to the first floor, providing direct access to a final entrance adjacent to the toilets. A small amount of floor area has been taken off the main room to accommodate an accessible toilet.

## 4. Exchange of Contracts.

Once the latest Contract of Sale has been agreed by LNT, the Parish Council will be able to Exchange Contracts. Members should note that the Deeds of Covenant and Transfer Deed will need to be signed before the contracts are exchanged, this will be carried out simultaneous at exchange and completion and would be carried out by Watson Ramsbottom at the Parish Council's request and consent.

### 5. Signing Legal Deeds.

Members will recall that at their meeting on 11 March 2024 they confirmed that as set out in the Council's Standing Orders, any two parish councillors can sign on behalf of the Council any deed required by law and that they nominated Cllrs. Heyworth and Chiappi to sign on behalf of the Parish Council. Members should note that Cllr's Heyworth and Chiappi have had their identities verified by Watson Ramsbottom.

### 6. Members are recommended to:

- 1. Note the Report and the Appendix.
- 2. Agree, that subject to agreement by LNT of the Contract of Sale, the Parish Council will Exchange Contracts.
- 3. Confirm that Cllrs. Heyworth and Chiappi can sign the exchange of contract documents on behalf of the Parish Council.

# Appendix 1a - Supporting Statement

# Supporting Statement for the Change of Use

# **Planning Application**

Barrow Parish Council have been offered the former pub/restaurant and cottage (22-25 Old Row) site. This is a once in a lifetime opportunity for the Parish Council to make a major improvement to the village and will play a crucial role in supporting Barrow's growing community by providing essential services and foster community cohesion for years to come.

It is envisaged that the Village Hall would cater for all ages from mother and toddler groups to over 60's keep fit classes.

The Village Hall will have wheelchair access at the rear of the building, an internal lift to the first floor, accessible toilets, a small well-being community garden and car parking to the rear on the hall on land the Parish Council lease from RVBC.

Regular users of the facility could include:

- Dementia Club
- Horticultural Club
- Keep fit classes.
- Toddler groups.
- Women's Institute.
- Slimming World/Weight Watchers.
- Local history/walking/camera/photographic groups.
- · Local Girl Guides.
- 'Learn a Language' classes.
- Coffee shop excellent footfall from local school drop off and pick up.

In addition, the Village Hall would be open for one-off events such as, quiz nights, birthday parties, weddings, anniversaries, special events, polling station and public meetings etc.

BIODIVERSITY NET GAIN STATEMENT
FOR THE FULL PLANNING APPLICATION
FOR CHANGE OF USE OF THE VACANT
RESTAURANT/ PUB AND ADJACENT COTTAGE
INTO A VILLAGE HALL AT
22 and 23-25 OLD ROW,
BARROW

FOR BARROW PARISH COUNCIL

REF:- 166

Date:- **REV A** – 18<sup>th</sup> June 2024; 3<sup>rd</sup> June 2024

### SITE DESCRIPTION

The site is located to the south east of Old Row, in the village of Barrow. The proposed change of use of the vacant restaurant/ pub into a village hall does not include any extensions. The proposed change of use will utilise the existing floor area of the building.

The biodiversity gain planning condition does not apply in relation to this development due to the proposals meeting the first and second conditions of the De Minimis Exemption.

"The first condition is that the development does not impact an onsite priority habitat.", there is not an onsite priority habitat, the outdoor areas within the site are hardstanding/ wasteland. Hardcore has been laid as part of the development of the care home site adjacent, which this site is currently part of.

"The second condition is that the development impacts—

(a)less than 25 square metres of onsite habitat that has biodiversity value(1) greater than zero; and

(b)less than 5 metres in length of onsite linear habitat."

The proposed development does not incorporate an extension, as such no habitat will be lost due to the proposals, so this criterion is met.

Image showing the hardstanding/ wasteland to the rear of the building, no extensions are proposed so no habitat will be lost.

## CONCLUSION

In conclusion, for the reasons listed above the Biodiversity Net Gain planning condition does not apply to this application.

# **Summary Statement**

Survey has confirmed the likely absence of roosting bats within the surveyed buildings at Old Row, Barrow.

04/10/2022 Bat Survey Report

## Introduction

- Subsequent to recommendations set out in Brooks Ecological Preliminary Ecological Appraisal in October 2022, (ER-6446-01), Brooks Ecological was commissioned to carry out a Bat Emergence Survey at the proposed development Site at Old Row, Barrow (Grid reference: SD 73782 38439).
- 2. Survey was required at a disused pub, associated outbuilding and a disused residential property adjoining the pub to the north, with all buildings being assessed as providing features with low bat roost suitability. In accordance with current best practice guidelines, buildings of low suitability need a single evening emergence or dawn re-entry survey in order to confirm the presence or likely absence of roosting bats.

Figure 1 The surveyed buildings - red line

## **Method**

- 3. Brooks Ecological specialise in bat surveys ranging from individual buildings through to complex sites requiring numerous visits with large teams. In terms of the survey effort, number of personnel and number of visits required to be able to properly evaluate the building(s) use by bats, we refer to the Bat Conservation Trust Survey Good Practice Guidelines (2016). However, these guidelines are not prescriptive, and we approach each site individually as required using our professional judgement and significant experience base.
- 4. In this case, a single visit with a team of four surveyors was deemed suitable to evaluate the potential use of the Site for roosting.
- 5. Surveys were carried out with surveyors positioned around the building to cover all aspects where bats could potentially emerge or return, and to establish activity levels around the Site.
- The surveyors, using heterodyne detectors, were in place at least 15 minutes before sunset and left once all species of bat would be expected to have left a roost and patterns of activity within the Site had been appraised. Conditions and dates are summarised in Table 1 below.

7. Surveys were directed by Christopher Shaw BSc (Hons) MCIEEM. Chris has over 10 years' experience of carrying out bat surveys in a professional capacity and is registered to use the Class Survey Licence WML CL18 (Bat Survey Level 2) and Bat Mitigation Class Licence WML CL21 Annex B.

#### Box 1 Bat roosts

Bats roost in buildings and trees in different locations depending upon time of year and environmental factors such as position of the sun, proximity to heat sources and feeding grounds. The following types are commonly referred to:

#### Transitional roosts

Bats frequently gather early in the season (March to April) before dispersing to summer roosts. Bats can be found in high numbers in these roosts for a very short period. Transitional roosts can also be found shortly before hibernation in August to October when bats (depending upon species) can gather in roosts not used earlier in the season.

#### Maternity roosts

These are among the most important roosts and are normally occupied from May to August. Depending on the species involved, some maternity roosts can contain a very significant proportion of the local population.

#### Summer (non-breeding) roosts

Small groups of non-breeding female and male bats can gather in these roosts or bats from a local population may choose to roost individually. There are normally a large number of suitable locations for summer non-breeding roosts and these may be routinely used or used only on an occasional basis. Irregularly used summer roosts can be very hard to find without unreasonable survey effort.

#### Mating roosts

Around September bats will gather in roost to mate; these are often in different locations than summer or breeding roosts.

#### Hibernation roosts

As bats in hibernation roosts are highly vulnerable to disturbance and bats can be present in large numbers these are considered to be among the most important bat roosts. Many species of bats roost in large and nationally important hibernation roosts associated with underground sites, many of which are well known and protected. However, the most common bat in the UK (the common pipistrelle) is largely unaccounted for in winter but thought to disperse and roost individually or in small groups in thermally stable cracks and crevices in thick walls or trees.

#### Box 2 Legal background

Bats are afforded full protection under The Wildlife and Countryside Act (1981) plus amendments, and the Conservation of Habitats and Species Regulations 2010. Under these Acts it is an offence among others, to recklessly kill, injure or disturb bats. It is also an offence to destroy or obstruct a roost even if bats are not in occupancy at the time of the action.

There are no defences against contravention of the Habitats Regulations 2010 which means that it is important for detailed and well-designed bat surveys to be carried out, prior to carrying out activities that may impact upon bat roosts such as demolition of buildings or removal of trees

Where bats are found within a potential development site, a license from Natural England may need to be secured if works that could otherwise contravene legislation are to be carried out. These licences are only issued where Natural England is satisfied that works are unavoidable and would not have a negative impact on the favourable conservation status of bats. A Natural England license requires that the potential development site has full planning permission and that bats were a material consideration of the planning permission.

# **Survey Results**

Emergence Survey - 27th September 2022 (sunset 18:56)

- 8. Surveyors were positioned so as to cover all features with bat roost suitability.
- 9. Overall, bat activity was considered to be very low, with no bat contacts being recorded throughout the course of the survey
- 10. No roosts were identified, or suspected, within the surveyed building.

Figure 2 Summary of bat emergence survey.

## **Evaluation & Conclusion**

- 11. Survey has demonstrated a likely absence of roosting within the surveyed buildings at Old Row, Barrow.
- 12. The proposed works therefore present little risk of impacting upon bats or their roosts.

### Standard Precaution

- 13. Although no evidence of roosting has been found and the likely absence of roosting has been concluded, it must be noted that bats frequently move between roost sites, can be very casual in their choice of roosting location and can turn un unexpectedly at any time.
- 14. On this basis the developer should always be mindful of bats as a potential constraint and have a protocol in place should any bats be seen or suspected during works: works should stop, a suitably licenced ecologist consulted, and their advice followed.

#### Enhancement

15. The NPPF puts emphasis on development delivering biodiversity enhancement above and beyond mitigating or compensating for any impacts. To this end the new development could include integral bat roost features to offer suitable habitat in the long term.
